Sample Vehicle Weights (no cargo)

RAM 3500 Laramie, Mega Cab, Dual Wheels, Diesel, – **7,046 lbs.**

Ford F350 Super Duty Crew Cab, Dual Wheels, Diesel – **8,170 lbs.**

Cadillac Escalade AWD – **7,100 lbs.**

Lincoln Navigator AWD - **6,540 lbs.**

Features:

1. Direct drive hydraulic cylinder, fewer moving parts for greater reliability and lower total owner cost.
2. True symmetrical design with easy vehicle access.
3. 53" long lifting carriage minimizes stress on columns to further improve durability.
4. 14 – step safety locks gives you the protection you need.
5. Single point safely release and full time engaged safety system makes the lift easy to operate and safe to use.
6. 2" X 3" welded tube on lifting carriage for maximum strength.
7. Single piece columns for added strength and less fatigue under heavy load conditions.
8. Plastic powder coating for durability and environment safety.
